

THANK YOU

The CHEO Foundation is committed to reporting back to our donors on how their gifts make life better for our community and how they impact our children and youth at CHEO. Thank you to Global Child Care Services Team for supporting CHEO!

Your **\$6,000** donation will allow CHEO to purchase an additional Portable Transilluminator that will greatly assist our mobile vascular team.

Nobody likes to get needles. This piece of equipment has super-hero like qualities - allowing nurses and doctors to see through the patient's skin and visualize the tiny veins in a child's arm.

At CHEO especially, this equipment significantly decreases patient discomfort, avoiding multiple "pokes" and ensures that kids receive the quickest and most painless treatment they can while also relieving stress and anxiety for families and our clinicians.

THANK YOU

"small enough to care, big enough to make a difference."
